

Deliverable D8.4 – Data management plan

Executive Summary

The data management plan (DMP) describes the data management lifecycle for all datasets which are collected, processed, or generated within the DOME 4.0 project. It describes the policy for handling all the datasets generated within the project, how research data will be generated, collected, and handled during the project and after it is completed, describing what data will be collected/generated and what methodology and standards will be followed.
